

# Casey Ray – MiTEC Weatherization Technical Instructor

Casey Ray has been a licensed builder and energy auditor in the field for the last 13 years, increasing energy efficiency of buildings, while improving the safety and health of occupants. In addition to working for several corporate energy audit firms, Casey founded and ran his own company COR Enterprises, since 2011. This endeavor has included managing and training employees, developing training manuals and individual project management.

Casey is BPI (Building Professional Institute) Certified, a LEED AP (Leadership in Energy and Environmental Design Accredited Professional) and has extensive experience in weatherization. His education background includes a Bachelors in Construction Management from Michigan State University and an Associates in Architecture from Baker College. Additionally, he authored “The Attic Air Seal Manual” to enhance quality work practices, in 2011. This document is freely available across the industry.
